Project topic (per i progetti del Sottoprogramma Ambiente)	Promoting non-judicial conflict resolution
Titolo del progetto	ENCOMium: ENvironmental CONflict Management
Breve descrizione del progetto	<p>Within the specific topic presented in the LIFE programme 2017 “Promoting non-judicial conflict resolution”, the general scope of our project is to reduce the use of traditional judicial instruments for the resolution of environmental conflicts and to strengthen a multi-level environmental governance through the implementation of a model of prevention and resolution of environmental conflicts by non-judicial instruments.</p> <p>Specific aims are:</p> <ol style="list-style-type: none">1. To improve the governance on the feasibility of wide-scope infrastructural and architectural works with social significance, which would have an impact on environment, territory and cities, thanks to the use of tools that allow citizens to be informed and to express their point of view;2. To spread and support the application of the civil mediation instrument to environmental conflicts, as a tool to reduce the judicial contentious, with particular regard to the transnational one, and to increase the level of environment protection;3. To improve the competences and know-how of professionals, operators and administrative officials working on the field of environment. Creation and training, at the European level, of new professional profiles and requalification of the existing ones working on the green economy, through the update of competences.4. To develop and support knowledge and dissemination, at European level, of good practices about non-adversarial, creative management and

	conflict prevention.
Profilo del partner ricercato	<p>We are looking for Replication cities who will commit to engage in replication activities that will take place throughout the project.</p> <p>The cities we are looking for will accept to be ambassadors of the project in their local context, by organising one local dissemination event on the results and lessons learnt from the project and their experience in implementing the initiative themselves (possibility of implementing non-judicial tools for environmental conflict management according to the models experimented in our project). Costs for the event will be covered by the project budget, up to a fixed amount to be defined.</p> <p>Moreover, the city will be part of a Steering Committee chaired by Comune di Milano, together with other key project stakeholders, in order to advise on the initiatives as well as the replication activity. The Steering Group will meet on a fixed basis during the project on a schedule to be confirmed (relevant costs for travel and lodging for the participation will be covered by the project budget).</p> <p>The project will cover travel and lodging costs for meetings and specific events and a fixed sum for the local dissemination event.</p>
Partner già coinvolti	<p>The partner consortium covers a wide range of stakeholders ranging from Public Local Authorities and Chambers of Commerce, to Universities, CSOs and NGOs and For Profit Entities.</p> <p>The geographical context covered by the project is: Italy (Lombardy, Tuscany and Sardinia) and France.</p>
Call deadline	14/09/2017
Partner search deadline	08/09/2017
